AINGER
TECHNOLOGIES

Ainger Advantage

- Ainger Tech provides only industry-recognized expert resources to best meet each client's specific goals

- Our pricing structure allows us to be extremely competitive

- Ainger has a world-wide network of consultants, which enables us to meet our clients' resource demands quickly (often next-day)

- Ainger deliberately maintains no marketing ties with any hardware, software or service vendors so that we can recommend and deliver the best solution to meet your needs

- While we maintain no direct ties, we have a network of contacts in virtually every major hardware organization in order to stay current with trends, availability, feature functions, etc
